REPORT OF INDEPENDENT AUDITORS

To the Board of Directors
Florida Green Finance Authority
Florida

Report on the Financial Statements

We have audited the accompanying financial statements of Florida Green Finance Authority as of and for the year ended September 30, 2019, and the related notes to financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Fort Pierce / Stuart

To the Board of Directors
Florida Green Finance Authority

Opinion

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Authority, as of September 30, 2019, and the respective changes in financial position and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Governmental accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *Governmental Accounting Standards Board* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures in accordance with governmental auditing standards generally accepted in the United States of America, which consisted principally of inquires of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated June 30, 2020 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations and contracts.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Florida Green Finance Authority's internal control over financial reporting and compliance.

Florida Green Finance Authority
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2019

Management's discussion and analysis of Florida Green Finance Authority (the "Authority") financial performance provides an objective and easily readable analysis of the Authority's financial activities. The analysis provides summary financial information for the Authority and should be read in conjunction with the Authority's financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Authority's basic financial statements comprise three components; 1) *Government-wide financial statements*, 2) *Fund financial statements*, and 3) *Notes to financial statements*. The *Government-wide financial statements* present an overall picture of the Authority's financial position and results of operations. The *Fund financial statements* present financial information for the Authority's major funds. The *Notes to financial statements* provide additional information concerning the Authority's finances.

The *Government-wide financial statements* are the **statement of net position** and the **statement of activities**. These statements use accounting methods similar to those used by private-sector companies. Emphasis is placed on the net position of governmental activities and the change in net position. Governmental activities are primarily supported by special assessments.

The **statement of net position** presents information on all assets and liabilities of the Authority, with the difference between assets and liabilities reported as net position. Net position is reported in three categories; net investment in capital assets, restricted, and unrestricted. Assets, liabilities, and net position are reported for all Governmental activities.

The **statement of activities** presents information on all revenues and expenses of the Authority and the change in net position. Expenses are reported by major function and program revenues relating to those functions are reported, providing the net cost of all functions provided by the Authority. To assist in understanding the Authority's operations, expenses have been reported as governmental activities. Governmental activities financed by the Authority include general government, physical environment and debt service.

Fund financial statements present financial information for governmental funds. These statements provide financial information for the major funds of the Authority. Governmental fund financial statements provide information on the current assets and liabilities of the funds, changes in current financial resources (revenues and expenditures), and current available resources.

Florida Green Finance Authority
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2019

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Fund financial statements include a **balance sheet** and a **statement of revenues, expenditures and changes in fund balances** for all governmental funds. A **statement of revenues, expenditures, and changes in fund balances – budget and actual** is provided for the Authority's General Fund. *Fund financial statements* provide more detailed information about the Authority's activities. Individual funds are established by the Authority to track revenues that are restricted to certain uses or to comply with legal requirements.

The government-wide financial statement is designed to provide the reader with a broad overview of the Authority's finances, in a manner similar to a private sector business. In the government-wide statement of net position, the governmental activities column is presented on a consolidated basis and is reported on a full-accrual economic resource basis, which recognizes all non-current assets and receivables as well as all non-current debt and obligations. The effect of interfund activity has been eliminated from the government-wide financial statements. In contrast, the governmental fund financial statements are grouped into funds to account for and to maintain control over resources that have been segregated for specific activities or objectives. The fund financial statements are presented using the current financial resources measurement focus and the modified accrual basis where as revenues are recorded when collected in the current period or within 60 days of year-end and expenditures are recorded when a liability is incurred. The difference between the two statements arises primarily from the long-term economic focus of the Statement of Activities versus the current financial resources focus of the governmental funds. A reconciliation of the government-wide and the fund financial statement is provided to illustrate these differences.

Notes to financial statements provide additional detail concerning the financial activities and financial balances of the Authority. Additional information about the accounting practices of the Authority, investments of the Authority, capital assets and long-term debt are some of the items included in the *notes to financial statements*.

Financial Highlights

The following are the highlights of financial activity for the year ended September 30, 2019.

- ◆ The Authority's total assets exceeded total liabilities by \$413,043 (net position). Unrestricted net position for Governmental Activities was \$119,605. Restricted net position was \$293,438.
- ◆ Governmental activities revenues totaled \$3,989,596 while governmental activities expenses totaled \$3,836,376.

Financial Analysis of the Authority

The following schedule provides a summary of the assets, liabilities and net position of the Authority and is presented by category for comparison purposes.

Net Position

	Governmental Activities	
	2019	2018
Current assets	\$ 10,362,967	\$ 7,574,557
Restricted assets	551,519	189,615
Total Assets	<u>10,914,486</u>	<u>7,764,172</u>
Current liabilities	1,093,136	402,220
Non-current liabilities	9,408,307	7,102,129
Total Liabilities	<u>10,501,443</u>	<u>7,504,349</u>

Net position - unrestricted	119,605	238,103
Total Net Position	<u>\$ 413,043</u>	<u>\$ 259,823</u>

The increase in current assets is mainly related to an increase in assessments receivable.

The increase in total liabilities is the result of the issuance of additional long-term debt in the current year.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Financial Analysis of the Authority (Continued)

The following schedule provides a summary of the changes in net position of the Authority and is presented by category for comparison purposes.

Change in Net Position

	Governmental Activities	
	2019	2018
Program Revenues		
Charges for services	\$ 3,979,703	\$ 5,818,754
General Revenues		
Investment earnings	675	312
Miscellaneous	9,218	9,422
Total Revenues	<u>3,989,596</u>	<u>5,828,488</u>
Expenses		
General government	516,430	179,684
Physical environment	2,325,603	4,958,970

Net Position - Beginning of Year	<u>259,823</u>	<u>85,634</u>
Net Position - End of Year	<u>\$ 413,043</u>	<u>\$ 259,823</u>

The decrease in charges for services is mostly attributable to reduced assessments levied for clean energy projects in the current year.

The increase in general government is related to the program reinvestment expenditure in the current year.

The decrease in physical environment is related to funding of fewer qualifying energy improvements in the current year.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

General Fund Budgetary Highlights

The budget exceeded actual expenditures for the year primarily because actual expenditures for miscellaneous expenditures and legal fees were less than anticipated.

The budget was amended primarily for the program reinvestment expenditure not anticipated in the original budget.

Debt Management

Governmental Activities debt includes the following:

In June 2015, the Authority issued \$2,225,700 Series 2015-1 (BrandsMart) Special Assessment Revenue Bonds. The Bonds were issued to finance certain allowable energy improvements. The balance outstanding at September 30, 2019 was \$1,687,120.

In April 2014, the Authority issued a \$49,556 PACE Financing Agreement to finance solar improvements. The initial funding was \$5,020. The balance outstanding at September 30, 2019 was \$4,551.

In February 2018, the Authority issued \$2,595,469 Series 2018 (Dadeland Mall) Special Assessment Revenue Bonds. The Bonds were issued to finance certain qualifying energy improvements. The balance outstanding at September 30, 2019 was \$2,595,469.

In June 2018, the Authority issued \$2,814,989 Series 2018 (Orlando International Premium Outlets) Special Assessment Revenue Bonds. In November 2018, the Authority amended and restated Special Assessment Revenue Bonds, Series 2018 (Orlando International Premium Outlets Project) for additional funding of \$2,747,301. The amended bond is represented as Special Assessment Revenue Bonds, Series 2018A (Orlando International Premium Outlets Project) for a total issuance amount of \$5,562,290. The Bonds were issued to finance certain qualifying energy improvements. The balance outstanding at September 30, 2019 was \$5,562,290.

Economic Factors and Next Year's Budget

The Authority anticipates continuing to work with the third-party administrator to issue additional bonds and loans for Enhanced Energy Products.

Florida Green Finance Authority
NOTES TO FINANCIAL STATEMENTS
September 30, 2019

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Authority have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Authority's more significant accounting policies are described below.

1. Reporting Entity

Florida Green Finance Authority was established on June 11, 2012 pursuant to an Interlocal Agreement between the Town of Lantana and the Town of Mangonia Park (the "Originating Parties") and subsequent parties who have since become members of the Authority ("Parties") and the Florida Interlocal Cooperation Act of 1969, Chapter 163, Florida Statutes. The Authority was established for the purpose of issuing revenue bonds and other debt obligations to provide financing for the cost of certain improvements as defined by Section 163.08, Florida Statutes ("PACE ACT"), including energy efficiency improvements, renewable energy improvements and wind resistance improvements ("Qualifying Improvements"). The Authority shall exercise any or all powers granted under Sections 163.01 and 163.08, Florida Statutes as well as powers, privileges and authorities which the Originating Parties and Parties might exercise separately. The Authority is governed by an up to seven-member Board of Directors appointed by the governing bodies of each of the Originating Parties and five additional Directors. The authority plans to appoint one Director from each of the five geographic regions that make up the water management districts in Florida. These five Directors will be appointed by the first governing body that joins the Authority within each water management district.

As required by GAAP, these financial statements present the Florida Green Finance Authority (the primary government) as a stand-alone government. The reporting entity for the Authority includes all functions of government in which the Authority's Board exercises oversight responsibility including, but not limited to, financial interdependency, selection of governing authority, designation of management, significant ability to influence operations and accountability for fiscal matters.

Based upon the application of the above-mentioned criteria as set forth in Governmental Accounting Standards Board, the Authority has not identified a discretely-presented component unit.

Florida Green Finance Authority
NOTES TO FINANCIAL STATEMENTS
September 30, 2019

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting

The basic financial statements of the Authority are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

a. Government-wide Financial Statements

Government-wide financial statements report all non-fiduciary information about the reporting government as a whole. These statements include all the governmental activities of the primary government. The effect of interfund activity has been removed from these statements.

Governmental activities are supported by developer contributions and interest. Program revenues include charges for services and payments made by parties outside of the reporting government's citizenry if that money is restricted to a particular program. Program revenues are netted with program expenses in the Statement of Activities to present the net cost of each program

Amounts paid to acquire capital assets are capitalized as assets, rather than reported as an expenditure. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as another financing source.

Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure.

b. Fund Financial Statements

The underlying accounting system of the Authority is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the primary government's governmental funds are presented after the government-wide financial statements. These statements display information about major funds individually.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

b. Fund Financial Statements (Continued)

Governmental Funds

The Authority classifies fund balance according to the Governmental Accounting Standards Board Statement 54 – *Fund Balance Reporting and Governmental Fund Type Definitions*. The Statement requires the fund balance for governmental funds to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

The Authority has various policies governing the fund balance classifications.

Nonspendable Fund Balance – This classification consists of amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact.

Restricted Fund Balance – This classification includes amounts that can be spent only for specific purposes stipulated by the state constitution, external resource providers, or through enabling legislation.

Assigned Fund Balance – This classification consists of the Board of Supervisors' intent to be used for specific purposes, but are neither restricted nor committed. The assigned fund balances can also be assigned by the Authority's management company.

Unassigned Fund Balance – This classification is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications. Unassigned fund balance is considered to be utilized first when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are considered to be available when they are collected within the current period or soon thereafter to pay liabilities of the current period. For this purpose, the Authority considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Interest associated with the current fiscal period is considered to be an accrual item and so has been recognized as revenue of the current fiscal period.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

b. Fund Financial Statements (Continued)

Governmental Funds (Continued)

Under the current financial resources measurement focus, only current assets and current liabilities are generally included on the balance sheet. The reported fund balance is considered to be a measure of “available spendable resources”. Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources are expended, rather than as fund assets. The proceeds of long-term debt are recorded as other financing source rather than as a fund liability.

Debt service expenditures are recorded only when payment is due.

3. Basis of Presentation

a. Governmental Major Funds

General Fund – The General Fund is the Authority’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Debt Service Fund – Accounts for debt service requirements to retire the revenue bonds and loans issued by the Authority.

Capital Projects Fund – The Capital Projects Fund accounts for construction of certain qualifying improvements to properties within the boundaries of the Authority.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3. Basis of Presentation (Continued)

b. Non-current Governmental Assets/Liabilities

GASB Statement 34 requires that non-current governmental assets and non-current governmental liabilities, such as long-term debt, be reported in the governmental activities column in the government-wide Statement of Net Position.

4. Assets, Liabilities, Deferred Inflows of Resources, and Net Position

a. Cash and Investments

Chapter 280, Florida Statutes require state and local governmental units to deposit monies with financial institutions classified as "Qualified Public Depositories," a multiple financial institution pool whereby groups of securities pledged by the various financial institutions provide common collateral from their deposits of public funds. This pool is provided as additional insurance to the federal depository insurance and allows for additional assessments against the member institutions, providing full insurance for public deposits.

The Authority is authorized to invest in those financial instruments as established by Section 218.415, Florida Statutes. The authorized investments consist of:

1. Direct obligations of the United States Treasury;
2. The Local Government Surplus Funds Trust or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperative Act of 1969;
3. Interest-bearing time deposits or savings accounts in authorized qualified public depositories;
4. Securities and Exchange Commission, registered money market funds with the highest credit quality rating from a nationally recognized rating agency.

b. Restricted Assets

Certain net position of the Authority will be classified as restricted assets on the statement of net position because their use is limited either by law through constitutional provisions or enabling legislation; or by restrictions imposed externally by creditors.

4. Assets, Liabilities, Deferred Inflows of Resources, and Net Position (Continued)

c. Budgets

Budgets are prepared and adopted after public hearings for the governmental funds, pursuant to Chapter 190, Florida Statutes. The Authority utilizes the same basis of accounting for budgets as it does for revenues and expenditures in its various funds. Formal budgets are adopted for the general fund. The legal level of budgetary control is at the fund level. As a result, deficits in the budget variance columns of the accompanying financial statements may occur. All budgeted appropriations lapse at year end.

d. Deferred Inflows of Resources

Deferred inflows of resources represent the acquisition of net position/fund that is applicable to a future reporting period. The unavailable revenues are reported only at the fund level. The source of the unavailable revenues is assessments receivable on qualifying improvements to properties within the Authority. The revenues will be recognized in the period the amounts become available.

NOTE B – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

“Total fund balances” of the Authority’s governmental funds, \$661,648, differs from “net position” of governmental activities, \$413,043, reported in the Statement of Net Position. This difference primarily results from the long-term economic focus of the Statement of Net Position versus the current financial resources focus of the Governmental Fund Balance Sheet. The effect of the differences is illustrated below.

Special Assessments Receivable

The assessments receivable in future years are recognized as deferred inflows at the fund level, however these amounts were recognized as revenues at the government-wide level in a prior year.

Deferred inflows of resources	\$ <u>9,849,906</u>
-------------------------------	---------------------

Long-term debt transactions

Long-term liabilities applicable to the Authority’s governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities are reported in the Statement of Net Position. Balances at September 30, 2019 were:

Bonds and loans payable	\$ <u>(9,849,430)</u>
-------------------------	-----------------------

Accrued interest

Accrued liabilities in the Statement of Net Position differ from the amount reported in governmental funds due to the accrued interest on bonds.

Accrued interest	\$ <u>(249,081)</u>

NOTE B – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONTINUED)

2. Explanation of Differences Between the Governmental Fund Operating Statements and the Statement of Activities

The “net change in fund balances” for government funds, \$243,406, differs from the “change in net position” for governmental activities, \$153,220, reported in the Statement of Activities. The differences arise primarily from the long-term economic focus of the Statement of Activities versus the current financial resources focus of the governmental funds. The effect of the differences is illustrated below.

Assessments receivable

Revenues in the current period associated with the current year payments on assessments receivable were recognized as revenues at the government-wide level in a prior year.

Assessment revenues	\$ <u>(190,163)</u>
---------------------	---------------------

Deferred inflows of resources

Unavailable revenues reported in the governmental funds have been recognized as revenues in the Statement of Activities. This is the increase in unavailable revenues.

Increase in unavailable revenues	\$ <u>2,747,301</u>
----------------------------------	---------------------

Long-term debt transactions

Repayments of loan principal are reported as expenditures in the governmental funds and, thus, have the effect of reducing fund balance because current financial resources have been used.

Principal payments	\$ 190,163
Issuance of long-term debt	<u>(2,747,301)</u>
Total	<u>\$ (2,557,138)</u>

Some expenses reported in the Statement of Activities do not require the use of current financial resources, therefore, are not reported as expenditures in governmental funds.

NOTE C – CASH AND INVESTMENTS

All deposits are held in qualified public depositories and are included on the accompanying balance sheet as cash and investments.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The Authority follows the provisions of Chapter 280, Florida Statutes regarding deposits and investments. As of September 30, 2019, the Authority's bank balance was \$1,056,115 and the carrying value was \$1,056,115. Exposure to custodial credit risk was as follows. The Authority maintains all deposits in a qualified public depository in accordance with the provisions of Chapter 280, Florida Statutes, which means that all deposits are fully insured by Federal Depositors Insurance or collateralized under Chapter 280, Florida Statutes.

As of September 30, 2019, the Authority held no investments.

Interest Rate Risk

The formal investment policy of the Authority conforms with State statutory requirements and bond indentures for investment maturities as a means of managing its exposure to increasing interest rates.

Credit Risk

The Authority's investments are limited by state statutory requirements and bond compliance. The Authority has no investment policy that would further limit its investment choices.

Concentration of Credit Risk

The Authority places no limit on the amount it may invest in any one investment.

The types of deposits and investments and their level of risk exposure as of September 30, 2019 were typical of these items during the fiscal year then ended. The Authority considers any decline in fair value for certain investments to be temporary.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Directors
Florida Green Finance Authority
Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Florida Green Finance Authority, as of and for the year ended September 30, 2019, and the related notes to the financial statements, and have issued our report thereon dated June 30, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Florida Green Finance Authority's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Florida Green Finance Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of Florida Green Finance Authority's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Directors
Florida Green Finance Authority

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Florida Green Finance Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

To the Board of Directors
Florida Green Finance Authority
Florida

Report on the Financial Statements

We have audited the financial statements of the Florida Green Finance Authority as of and for the year ended September 30, 2019, and have issued our report thereon dated June 30, 2020.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Florida Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* and our Independent Auditor's Report on an examination conducted in accordance with *AICPA Professionals Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated June 30, 2020, should be considered in conjunction with this Management Letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report. There were no findings or recommendations in the preceding financial audit report.

Financial Condition and Management

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not Florida Green Finance Authority has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific conditions met. In connection with our audit, we determined that Florida Green Finance Authority did not meet any of the conditions described in Section 218.503(1) Florida Statutes.

Fort Pierce / Stuart

To the Board of Directors
Florida Green Finance Authority

Pursuant to Sections 10.554(1)(i)5.c. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for Florida Green Finance Authority. It is management's responsibility to monitor the Florida Green Finance Authority's financial condition; our financial condition assessment was based in part on the representations made by management and the review of the financial information provided by the same as of September 30, 2019.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our Management Letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board of Supervisors, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT ACCOUNTANT'S REPORT/COMPLIANCE
WITH SECTION 218.415, FLORIDA STATUTES**

To the Board of Directors
Florida Green Finance Authority
Florida

We have examined Florida Green Finance Authority's compliance with Section 218.415, Florida Statutes during the year ended September 30, 2019. Management is responsible for Florida Green Finance Authority's compliance with those requirements. Our responsibility is to express an opinion on Florida Green Finance Authority's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about Florida Green Finance Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on Florida Green Finance Authority's compliance with the specified requirements.

In our opinion, Florida Green Finance Authority complied, in all material respects, with the aforementioned requirements during the year ended September 30, 2019.
